Leica Trinovid.

Return of the iconic binoculars.

The new Trinovid binoculars from Leica are a tribute to the iconic glass of the 1960s. Shapely, slim and elegant in classic binocular design featuring black leather, they are a statement and a timeless accessory. A Trinovid lets you experience special moments so vividly that they become unforgettable.

The precise, powerful premium optics give you an impressive overview, while intuitive operation ensures that you can comfortably observe, even the smallest details. You won't miss a thing. The latest glass types and coatings guarantee brilliant, natural colours and high-contrast, bright images from edge to edge.

Protected by an ultra-light aluminium housing and state-of-the-art materials, the new Trinovid binoculars are rugged, weatherproof and splash-proof. They are up to any challenge, even under harsh conditions, making them the perfect companion for travelling, on hiking tours or at events.

The benefits at a glance

- iconic and elegant design, slim shape
- impressive overview
- clear, natural images from edge to edge
- high-quality, rugged aluminium housing
- 3 models available: 7x35, 8x40 and 10x40

LEICA TRINOVID 7x35

- outstanding orientation thanks to widest field of view
- recognise more details, even at dusk
- scan the scenery calmly and steadily

LEICA TRINOVID 8x40

- clear, bright images
- reliable and universal
- great overview and detail recognition

LEICA TRINOVID 10x40

- recognise finest details for expressive observations
- comfortable viewing thanks to ideal eye relief
- sleek, elegant shape with low weight

With the new Trinovid binoculars, Leica celebrates the return of the iconic Leitz Trinovid from the 1960s.
