

Proof of Performance

The following pictures illustrate the core competencies of the the Leica M10-R.

Resolution

With 40MP you're able to crop or zoom in without quality loss. Pay special attention to the hairs of the strawberry to demonstrate the sharpness. Apo Summicron 50 mm | f 5.6 | 1/12s | ISO 100

Resolution

With 40MP you're able to recognize more details and overall sharpness. Pay special attention to the fine details in the wood and windows in the marked area. Summilux 24 mm | f 4 | 1/500s | ISO 100

Low-Light Performance

With ISO up to 50000 you're able to shoot out of hand even in low-light situations. Pay special attention to the detailed parts of the buildings even with ISO 25000. Summilux 35 mm | f 2 | 1/250s | ISO 25000

Low-Light Performance

State of the art low-light performance combined with a high resolution 40MP sensor. Pay special attention to the overall even and pleasant noise. Summilux 35 mm | f 4 | 1/1000s | ISO 6400

Proof of Performance

The following pictures illustrate the core competencies of the the Leica M10-R.

Dynamic range

With a high dynamic range you're able to capture all details between highlights and deepest shadows. Pay special attention to the details of the rocks and at the same time the sunset still perfectly exposed.

Summilux 21 mm | f 5.6 | 1/30s | ISO 100

Long exposure time

With a maximum of 16 minutes shutter time you're free to take pictures at any light situations.

Pay special attention to the stars - the trail shows the length of the exposure.

Summilux 35 mm | f 8 | 16 min. | ISO 100

Leica Lenses

Our lenses are designed to keep up with a 40MP sensor.

Pay special attention to the crispness of the waterdrops on the fruits.

Apo Summicron 50 mm | f 2.8 | 1/15s | ISO 100

Leica Look

The M10-R shows the Bokeh even smoother.

Pay special attention to the transition of sharpness from the middle to the corners of the image.

Noctilux 50 mm | f 0.95 | 1/1000s | ISO 100
