

Press Release

Xiaomi and Leica Camera AG present the Xiaomi 15T series Leica optics offer maximum creative freedom, from wide angles to telephoto

Wetzlar / Munich, 24 September 2025 – The new Xiaomi 15T series – consisting of the Xiaomi 15T and the Xiaomi 15T Pro – are the next step in the successful technology partnership between Xiaomi and Leica Camera AG, who are expanding their joint portfolio with two more smartphones featuring Leica optics. The Xiaomi 15T series is the perfect example of how innovative smartphone technology continues to be combined with Leica's unmistakable visual aesthetics.

Leica Summilux lenses enable expressive photography

The photographic experience in both models is centred around the main camera and the Leica Summilux lens, which provides a high lens speed (f/1.7 on the Xiaomi 15T, f/1.62 on the Xiaomi 15T Pro) and is adjusted to the various high-end sensors. By combining these, it is possible to achieve outstanding reproduction of details, rich contrasts and natural-looking colours, even in low light conditions.

The Xiaomi 15T Pro also includes a powerful Leica Vario-Summilux 15–115 mm f/1.62–3.0 ASPH. lens. New creative possibilities are opened up with focal length equivalents that range from 15 mm to 230 mm – this enables everything from dramatic ultra wide-angle shots to detailed portraits using the super-telephoto range.

Leica 5x Pro telephoto lens provides new perspectives

The new Leica 5x Pro telephoto lens heralds new innovations in the Xiaomi T series: a 5x optical zoom, 10x optical zoom and up to 20x ultra-magnification can all be enjoyed with the Xiaomi 15T Pro. As a result, you can capture both impressive landscapes and the finest of details with the highest levels of precision. Both models are equipped with a 32-megapixel front camera for portraits, selfies and video calls – capturing every shot with Leica's unmistakable image aesthetics.

Leica Looks & Street Photography Mode

Exclusive Leica image modes are available on both models and include the popular "Leica Authentic Look" for natural colour rendering and the "Leica Vibrant Look" for a more intense depth of colour. Also available is "Master Portrait Mode", which allows expressive portraits to be taken with the use of newly developed bokeh effects. This is complemented by a specially developed "Leica Street

Photography Mode”. This mode allows you to quickly access iconic focal lengths, such as 28 mm, 35 mm and 50 mm, while lengths of 75 mm and 135 mm are also available on the Xiaomi 15T Pro.

	Xiaomi 15T	Xiaomi 15T Pro
Leica main camera	50 MP, f/1.7, Leica Summilux	50 MP, f/1.62, Leica Summilux

Sensor	Light Fusion 800	Light Fusion 900 with 13.5 EV dynamic range
Video	4K HDR10+, up to 60fps	8K, 4K up to 120fps, 10 bit log with LUT
Street Photography Mode	up to 75 mm	also available up to 135 mm

Quote

“The Xiaomi 15T series is the perfect example of how our vision and the Leica imaging experience can be incorporated into the world of mobile phones. The Xiaomi 15T and 15T Pro allow users to access tools that provide both uncompromising image quality and true creative freedom,” explains Marius Eschweiler, Vice President, Mobile Business Unit at Leica Camera AG.

About Leica Camera

Leica Camera AG is an international, premium manufacturer of cameras, lenses, and sports optics. As part of its growth strategy, the company has expanded its portfolio to include mobile imaging (smartphones) and the manufacture of high-quality spectacle lenses and watches, and is also represented in the home cinema segment with its own projectors.

Leica Camera AG, with its headquarters in Wetzlar, Germany, and a second production site in Vila Nova de Famalicão, Portugal, operates a global network of its own distribution companies with around 120 Leica Stores worldwide.

The Leica brand stands for excellence in quality, German craftsmanship and industrial design, combined with innovative technologies. An integral aspect of the brand culture is the promotion of the culture of photography, with around 30 Leica Galleries worldwide, the Leica Akademie and international awards such as the Leica Hall of Fame Award and the Leica Oskar Barnack Award (LOBA).
