### 8. Please also update all your S-Lenses.

9. Go to camera menu: SETUP/camera information/lens firmware and follow the dialogue.

#### CAUTION:

During the firmware update, you should not:

- Turn off the camera
- Remove the battery
- Detach the lens
- Remove the memory card
- The multifunction hand grip may not be attached

#### FAILURE TO FOLLOW THESE INSTRUCTIONS MAY RESULT IN SERIOUS DAMAGE TO YOUR CAMERA!

If the camera's functionality is restricted after carrying out the firmware update, contact your Leica dealer or your local Leica Customer Care center.

# CONTENT OF LEICA S (Typ 007) FIRMWARE 4.1.0.0

Release date:

### November 2016

\_ Bug fix of an operational malfunction which occurred with previous FW 4.0.0.0: When the camera is switched to Live View Photo and then off again, it automatically restarts that mode after every following exposure. The only solution is to switch off the camera, remove the battery and then start again. The same happens with Live View Video and Video Record.

# CONTENT OF LEICA S (Typ 007) FIRMWARE 4.0.0.0

Release date:

### September 2016

\_ New Feature: **Optimized UI** completely newly designed INFO screen on camera's rear display

\_ New Feature: Rating Function available in PLAY mode

(rating supported by Adobe Photoshop Lightroom CC, Photoshop CC and Bridge CC) **Note:** Rating function is only available for pictures which are taken as of firmware version 4.0.0.0. Pictures which were taken with older firmware versions can not be rated.

New Feature: **Zoom Position Lock** in PLAY mode the last zoom position is now saved automatically. When you reenter PLAY mode and call up 100% zoom (by a long press of the rear click dial) the last zoom position will be used which allows a very quick and easy focus check of the relevant part of the image

## \_ New Feature: Better Control/Easy Operation

**depth of field information** on camera's top display now available in meters **(m)** and feet **(ft)**; and now can be deactivated

\_ New Feature: **viewfinder information** display now shows **real-time buffer information** when pressing the shutter release button to its first stage

\_ New Feature: **"PC"** icon is shown on the camera's top display when it is connected to the computer via USB3.0 super speed cable

\_ New Feature: **"Remaining Recording Time"** is shown on camera's top display when camera is in Video LiveView and Video Recording mode

\_ New Feature: Mirror Up Icon is displayed on the camera's rear display while mirror up is in use
