### Leitz-Park – Ein Ort für das Wesentliche

#### Limited edition to celebrate the opening of the new complex

**Wetzlar, 15 June 2018.** To celebrate the inauguration of the third phase of the Leitz Park complex, Leica Camera AG presents a strictly limited edition of selected camera models. All of the versions for this occasion have unique design features.

Three models are available as 'Leitzpark Edition' versions: a black Leica Q with special engraving on the top plate, black and silver chrome versions of the Leica M10 with special engraving on the top plate – on both of which the Leica red dot logo has been replaced by a screw – and a black Leica D-Lux with special engraving on the front of the camera body. The Leica M10 and Leica Q cameras both also feature special leather trim.

The 'Leitzpark Edition' is strictly limited to only 50 examples of each of the cameras. The content of each of the camera sets corresponds to that of the standard production models.

The 'Leitzpark Edition' models will be available exclusively from the Leica Store at the Leitz Park in Wetzlar on 15 and 16 June 2018.
