Leica Amplus 6 riflescope Reliable and dependable in daily use

Leica Sport Optics (Wetzlar) is presenting a newly developed riflescope series: Leica Amplus 6. The premium riflescope with 6x zoom and reticle illumination in a 30mm design. Amplus combines high quality optical performance in a feature rich and robust construction for everyday all-around use.

Leica Amplus 6 balances premium optical performance with rugged features and is complimented by the extremely sharp illuminated dot, 6x zoom, large exit pupil and wide field of view. The robust design makes the Leica Amplus 6 ideal for uncompromising use in any situation, even in the most adverse conditions.

The extra-precise, illuminated reticles of the Amplus 6 ensure slight target coverage and a particularly sharp and brilliant image of the illuminated dot - without annoying over-radiation. This means that users always have a

clear sight picture, even in challenging light conditions. The Leica L-4a reticle serves as a tried and true universal hunting reticle for precise shooting. The Leica L-Ballistics reticle enables precision shooting at long distances. Both reticles are in the second focal plane.

Leica Amplus 6 – Reliable and dependable for all-around use

When developing the Amplus 6, Leica placed great emphasis on the high-quality components of the functional elements. 'The high-quality component system of the Amplus 6 ensures reliability and precision at the decisive moment. We rely on the proven Leica DNA: color-neutral images with brilliant color correction, effective stray light suppression, highest-quality and modern coating technology, as well as shock-resistant housing and unrivalled surface finish. This makes the new Amplus 6 series a reliable companion for everyday all-around hunting situations,' says Ferdinand Mogwitz, Product Manager Hunting Optics at Leica Camera AG.

Leica Amplus 6 models - advantages at a glance

- _ 6x zoom for all essential hunting situations
- _ Wide field of view of up to 38 m for a perfect sight picture
- _ High light transmission of more than 90 percent
- _ Particularly precise reticle illumination
- _ Generous eye relief up to 90mm
- _ Large exit pupils up to 12mm
- _ Extremely robust material quality

The Leica Amplus 6 will be available from March 2020 – the Leica Amplus 6, 3–18 x 44i (MOA version) as of July 2020 - in Leica Stores and in specialist shops for the following recommended retail prices:

Leica Amplus 6 1–6 x 24 i	- € 1.300,00
Leica Amplus 6 3–18 x 44 i	- € 1.600,00
Leica Amplus 6 2.5–15 x 50 i	- from € 1.500,00
Leica Amplus 6 2.5–15 x 56 i	- from € 1.600,00
