Installation instructions for the Leica M10-R

Firmware 10.20.27.20

Dear Customers,

Installing the latest firmware on your Leica M10-R will improve the performance of the "focus-peaking".

Update Contents

Model	LEICA M10-R
Update version	10.20.27.20
Name of the Firmware file	M10-R-10.20.27.20 –CUSTOMER.FW

Overview

Version	Description

Version	
10.20.27.20	• **Focus-peaking.** *Better performance of the focus-peaking in low-light situation.*

Please follow these steps to install the new firmware for your Leica M10-R camera:

Recharge the battery to 100% and insert the battery into the camera.

1. Download the new firmware file to your computer.
2. Prepare the SD card for installation:

   a. Please make sure that the card contains at least 200 MB of free disk space.
   b. It is recommended to format the card inside the camera before continuing.
   c. Download the new firmware file to your computer.
   d. Copy the firmware file to the root directory of the SD card.
   e. Eject the SD card properly from your computer.

3. Insert the SD card into the camera and switch the camera on.
4. Go to Main Menu / Camera Information / Camera Firmware
5. Press "Yes" to confirm and start the process;

   a. You should save your current profiles to the SD card before proceeding with the update.
   b. Wait until the update installation is completed. (**Note: This update will take significantly longer as previous updates, up to 10 min)**
   c. Restart the camera; do not eject the SD card.
   d. Please load your last saved profiles from the SD card after the first startup.

6. The update process is complete.

CAUTION:

Please do **NOT** turn off your camera, remove the Battery, or remove the SD Memory Card while the update is running.

DISREGARDING THIS WARNING CAN CAUSE SERIOUS DAMAGE TO YOUR CAMERA!

PLEASE NOTE:

Single cameras from the very first production lot can show a striking behavior: After the update is successfully done, the Live View shows a purple/reddish tint.
In this case the camera needs to be resetted (choose the menu option „reset"). After the reset, this behavior will never occur again.
