

NEW!

Leica Calonox.

Thermal imaging cameras for modern hunting.

Leica Calonox View. The Thermal Camera.

NEW!

Outstanding image quality
at a long range.

See more, identify game safely.

For hunters looking to spot and identify game safely from afar with high-level accuracy, the Leica Calonox View thermal imaging camera is an indispensable hunting companion that offers superlative image quality - by day or night and under the most challenging conditions.

Incredibly sharp, high-contrast, detail-rich images thanks to Leica Image Optimization (LIO™) with 640x512 pixels at 12µm pixel size.

Four field-tested color modes for high-contrast detail recognition.

The benefits at a glance

- powerful VOx Sensor with LIO™ for impressive imaging performance
- 640 x 512 px with 12µm pixel size
- high-resolution HD display (1280 x 960 px)
- 2.5-10 x magnification range for detailed game identification
- 3000 m detection range
- photo/video function (plus live view)

Leica Calonox Sight. The Thermal Imaging Clip-on.

NEW!

Extreme precision,
maximum repeatability.

Precise spotting, precise shot.

Every shot is a responsibility. The Leica Calonox Sight is the right choice when you want to elevate your field judging accuracy and ensure an ethically placed shot. This combined thermal camera and thermal imaging clip-on also let you achieve exceptional repeatability.

42mm objective for a large field of view and a long range.

The benefits at a glance

- maximum precision and repeatability
- high-contrast images with LIO™ thanks to a 384x288 px VOx sensor with 17µm pixel size
- 1.024 x 768 px OLED display
- 2000 m detection range
- adapter mount with M52x0.75 thread
