

„Wildlife has always been part of my life. For me, my greatest joy is observing them in their habitat, exhibiting natural behaviours. My Leica Noctivid, APO-Televid and now Calonox give me unrivalled opportunity to firstly spot, then watch species from Iberian wolves to bearded vultures, and everything in between. Both day and night, in all conditions – be it crystal-clear cool days, to rain storms and low cloud.“

Luke Massey

For lovers of nature.
Closer than ever.

„Without my Leica optics I am naked and powerless. It is as simple as that. I cannot ever imagine birding without my APO-Televid 65 and my ‘Noculars’. Nothing surpasses their optical excellence!“

David Lindo

Leica Noctivid.

Our very best for new viewing experiences.

Noctivid 10 x 42

Discover more at:
www.leica-noctivid.com

Nature is diverse, beautiful, mysterious, fascinating. And a love of nature unites people. The Leica Noctivid models are inspired by the great outdoors – combining a century of knowledge in one pair of binoculars. In terms of optical values, the Noctivid marries the best of today’s most innovative and proven technologies. Ideally balanced, this glass is compact, stylish, elegant, yet incredibly rugged and durable. Highest transmission, unbelievably lifelike colours, maximum contrasts, and an extra-large field of view make the viewing experience with Leica Noctivid more intense than ever before.

Noctivid models: 8 | 10 x 42, each in black or green

- perfectly matched combination of light transmission, stray light suppression, and contrast
- superlative colour neutrality and brilliance
- large eyepieces and long eye-relief distance of 19 mm for overwhelmingly fast impressions and comfortable viewing

Leica Ultravid.

One-of-a-kind experiences.

Ultravid 8 x 32 HD-Plus

Discover more at:
www.leica-ultravid.com

The Leica Ultravid binocular models make every moment in nature an unforgettable experience. The fluoride lenses of the Ultravid HD series ensure brilliant colour fidelity and perfect contrast, unique image brightness, and razor-sharp images. This performance is rounded off by highly efficient false light suppression, which delivers optimum contrasts. But the Ultravid compact binoculars are also excellent companions for demanding observers. On every journey, the extremely handy format and impressive optical quality win nature lovers over.

Ultravid HD-Plus models: 8 | 10 x 32, 7 | 8 | 10 x 42 and 8 | 10 | 12 x 50
 Ultravid BR models: 8 x 20 and 10 x 25

- 92% light transmission for use throughout the day
- compact with minimal weight
- HD-Plus optics for optimum image brightness and excellent colour neutrality

Ultravid 10 x 25 BR

Leica Trinovid.

Ready for anything. Always to hand.

Trinovid 8 x 42 HD

Discover more at:
www.leica-trinovid.com

The Trinovid binoculars, designed for the most flexible applications, win viewers over with the best optical performance, outstanding mechanical properties, and the simplest handling. Thanks to the proven Leica optics, the Trinovid HD offers excellent contrast, true-to-life colours, and very good light transmission. Rubber armoured makes these models incomparably durable and provides perfect grip in all weather conditions. For even more breath-taking viewing experiences, anytime and anywhere. The handy, very lightweight Trinovid compact binoculars are absolutely ideal for traveling.

Trinovid HD models: 8 | 10 x 32 and 8 | 10 x 42
 Trinovid BCA models: 8 x 20 and 10 x 25

- high-quality Leica optics for rich-contrast, razor-sharp images and optimum colour neutrality
- compact design – ideally balanced and light in weight
- rugged all-rounder for your travels

Trinovid 8 x 20 BCA

Leica APO-Televid.

Observe with maximum power.

APO-Televid 65 W

IT'S BACK! APO-Televid 65 W
www.leica-apo-televid.com

Discover nature and its creatures without disturbing any habitats. Both the APO-Televid 65 W and the APO-Televid 82 W meet the highest demands placed on a high-quality spotting scope. These models are compact in size and feature an outstanding close-up range, along with durable mechanics, intuitive handling, appealing design, and brilliant optics. The particularly compact APO-Televid 65 W is ideal for travel, long hikes, or strenuous alpine climbs: only 11.9 in long, it weighs a mere 39.2 oz.

APO-Televid models: APO-Televid 65 W and APO-Televid 82 W

- state-of-the-art fluoride lenses for perfect colour fidelity and contrast
- dual focussing for rapid and precise adjustment
- extremely large field of view, compact and bright
- rugged and quiet, thanks to rubber-armoured magnesium housing
